We would like to begin by acknowledging that the land on which we gather in BC is unceded Traditional territories of the səlilwəta 24, kwikwələm, Skwxwú7mesh Úxwumixw and x^wmə9k^wəy'əm Nations.

York University acknowledges its presence on the traditional territory of many Indigenous Nations. The area known as Tkaronto has been care taken by the Anishinabek Nation, the Haudenosaunee Confederacy, and the Huron-Wendat. It is now home to many First Nation, Inuit and Métis communities. We acknowledge the current treaty holders, the Mississaugas of the Credit First Nation. This territory is subject of the Dish With One Spoon Wampum Belt Covenant, an agreement to peaceably share and care for the Great Lakes region.

A LONGITUDINAL INVESTIGATION OF EMPLOYMENT AND INCOME TRENDS AMONG SYRIAN REFUGEE FAMILIES IN BRITISH COLUMBIA

Health & Mental Health Economic and social impacts of COVID-19

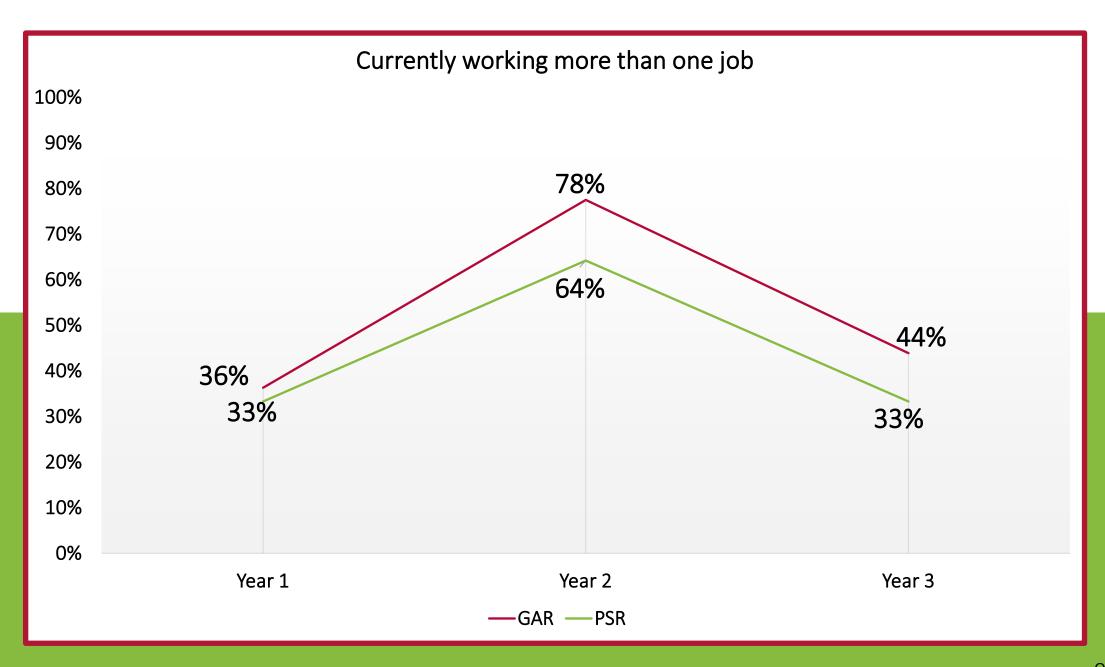

(N=240)	GAR	PSR	
Number of Individuals	186 (77.5%)	54 (22.5%)	Employment rates

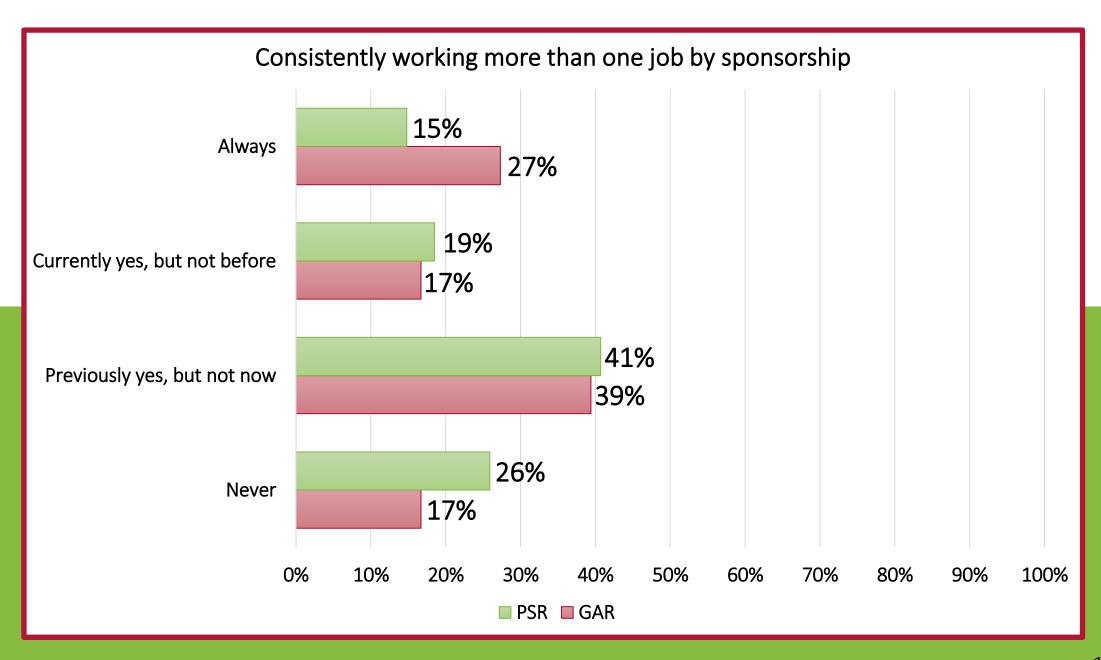

(N=105)	GAR	PSR	
			Income sources /
Number of households	82 (78.1%)	23 (21.9%)	Financial stability

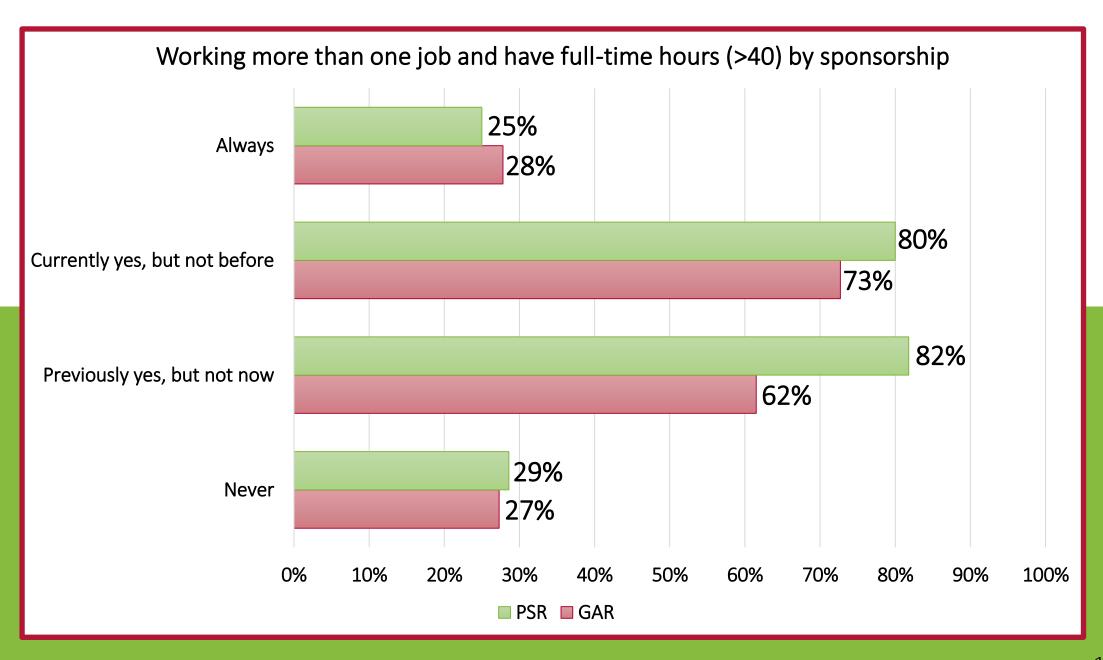

SyRIA.lth – BC Participants

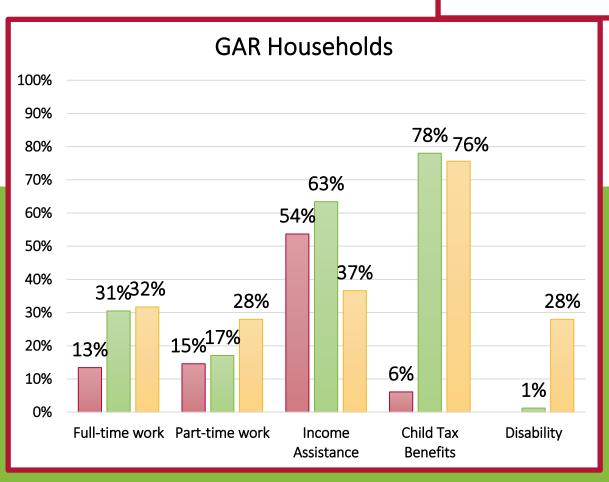

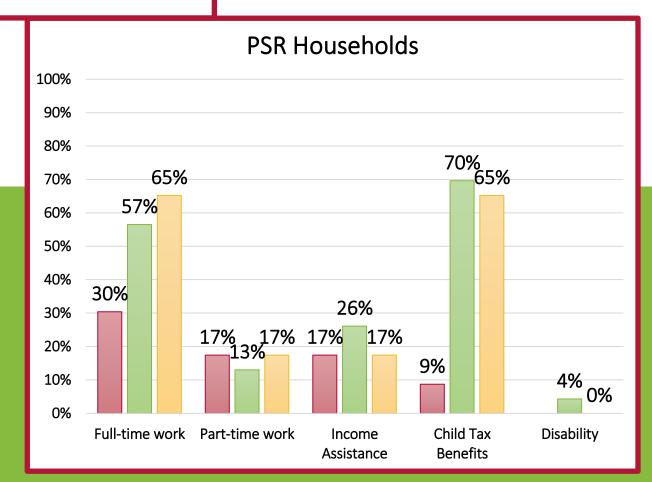

Sources of income by sponsorship (n-105)

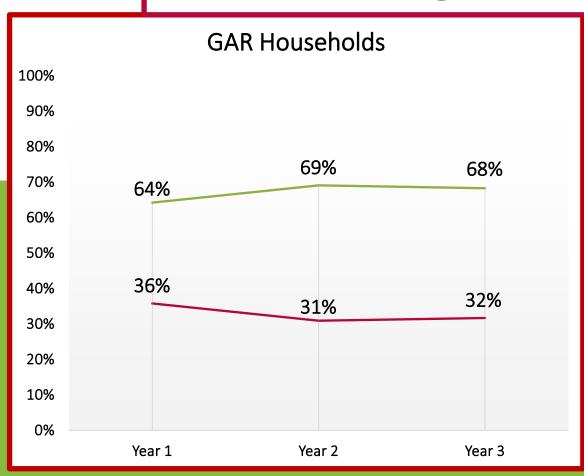

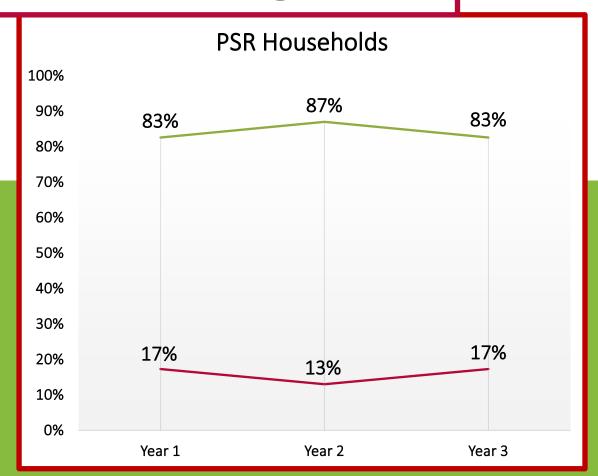

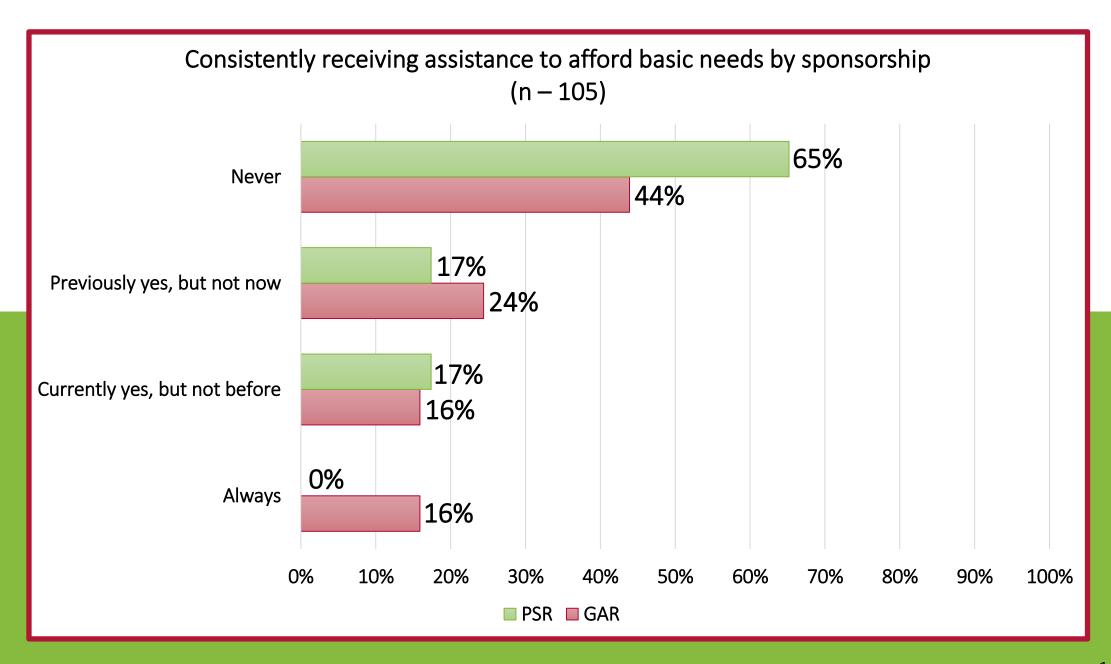

Trouble affording basic needs by sponsorship (n-105)

No, never had to get assistance

——Yes, had to get assistance

Initial Findings

Increased employment overall for both PSRs and GARs

Increased employment stability, marked by fulltime hours and a decrease in multiple jobs

Significant reduction in GARs reliance on BC Income Assistance in Year 3

By year 3, the majority of households indicate they are not receiving assistance to meet basic needs.
